Projects

Notepad |

- 🔗 **Deployed Link** : <https://ashu-2024.github.io/Nodepad/>
- 📁 **Github Repo** : <https://github.com/ashu-2024/Nodepad>
- Designed and implemented a browser-based Notepad application with dynamic note management features, ensuring a clean and intuitive user interface.
- Utilized HTML, CSS, and JavaScript to create an interactive and responsive app adaptable to various devices.
- Integrated local storage and JSON for seamless data persistence, enhancing user experience and reliability.
- Demonstrated strong organizational skills by structuring code for maintainability and scalability.
- Managed project timelines independently, adapting to challenges and maintaining a high standard of quality.

Puzzle Solver |

- 🔗 **Deployed Link** : https://ashu-2024.github.io/Solve_Puzzle/
- 📁 **Github Repo** : https://github.com/ashu-2024/Solve_Puzzle
- Designed and implemented an interactive puzzle game, collaborating with peers for feedback and iterative improvements.
- Communicated progress and incorporated suggestions from colleagues to enhance user experience and functionality.
- Demonstrated professionalism by managing development milestones and meeting self-imposed deadlines.
- Adapted project features based on user feedback, showing flexibility in approach and prioritization.
- Maintained thorough organization of code and assets, ensuring project clarity and easy maintenance.

Movie Search Website |

- 🔗 **Deployed Link** : https://ashu-2024.github.io/Search_Movies/
- 📁 **Github Repo** : https://github.com/ashu-2024/Search_Movies
- Collaborated with online API providers to seamlessly integrate real-time movie data, enhancing user experience.
- Communicated key project milestones and challenges through detailed documentation and regular updates.
- Demonstrated professionalism by meeting self-imposed deadlines and ensuring high-quality code and design.
- Adapted to feedback by iterating on UI/UX to create a clean, responsive interface suitable for various devices.
- Maintained strong organizational skills by structuring code and project assets for clarity and scalability.

Skills

Technical Skills: Java, SQL, Node.js, Git, React, JavaScript, CSS3, HTML5

Soft Skills: Adaptability, Time Management, Teamwork, Problem Solving
